## Important Information For Parents/Guardians Of Students Who Are Under The Age Of 18 Years

### 1. Student minors and parental responsibility

Students may still be under the age of 18 years at the time of admission to the College. These students (student minors) are not adults from legal and social perspectives. While the College, in appropriate circumstances, will give due consideration and take necessary measures in handling the affairs in regard to student minors, it should be noted that parental responsibility remains with the parents/guardians. The College will not act in loco parentis (i.e. not assuming parental responsibility).

### 2. Academic and social life in the College

Despite their minor status, student minors are expected to lead their academic and social lives in the College as other students. In this connection, parents/guardians should note, among others, that student minors may:

- have access to a variety of information and materials (including those normally suitable for adults only) in a free academic environment;
- participate or engage (pursuant to a course requirement or otherwise) in academic, training, social and other activities (e.g. field trips, internships, placements, tours outside Hong Kong, late night meetings or gatherings, overnight programmes and high-risk sports) which may involve various kinds of risks;
- participate in the activities of and become office bearers in student organizations, and take up the relevant responsibilities; and
- need to receive medical treatments, psychological treatments or counseling services, or undergo medical operations, especially in case of emergency.

### 3. Personal Data (Privacy) Ordinance

Student minors are protected by the Personal Data (Privacy) Ordinance. In this respect, parents/guardians have no automatic right to access the personal data of student minors (e.g. academic records). It is the normal practice of the College to correspond directly with students but not their parents/guardians. However, the College acknowledges that it is necessary to maintain updated contact details of the parents/guardians of student minors, in particular for emergency. If appropriate, parents/guardians may also provide relevant information to the College for the interests of student minors.

### 4. Consent

The parent/guardian of a student who is under the age of 18 years at the time of admission is required to complete and sign the consent form (Part V above) which should be submitted to the College. Without the required consent form, the College may have difficulty in arranging some of the teaching and learning activities for a student minor, and therefore, his or her studies may be affected.

**Note: The information provided will be used by the College to perform its academic, education and administrative functions. Under the provisions of the Personal Data (Privacy) Ordinance, applicants have the right to request the College concerned to ascertain whether it holds your personal data, to be given a copy, and to apply for correction of the data, if deemed incorrect. Applications for access to personal data should be made by using the Data Access Request Form and on payment of a fee. Such applications for access to information should be addressed to the Data Protection Officer, via [privacy@hkuspace.hku.hk](mailto:privacy@hkuspace.hku.hk). For general requests of personal data amendment, please contact the Admissions Office of the College.**
