Since its establishment in 2000, HKU SPACE Community College has grown into one of Hong Kong's leading providers of sub-degree education. Over the years, the College has produced more than 52,000 graduates, of whom over 34,000 have gone on to pursue bachelor's degrees, including about 18,000 at UGC-funded universities. The University of Hong Kong has continued to welcome many of our graduates, with admissions now nearing 5,500.

The College's commitment to providing a comprehensive and forward-looking curriculum equips students for success in further education and professional advancement. Our Experiential Learning framework continues to bridge theory and practice, empowering students to apply their academic knowledge to real-world challenges. The Core Curriculum of our Associate Degree programmes promotes interdisciplinary learning and reflective practice, equipping students with broad knowledge, critical thinking, and strong communication skills for lifelong adaptability, while our Higher Diploma programmes work closely with industry partners to provide work placements and training that strengthen students' career readiness.

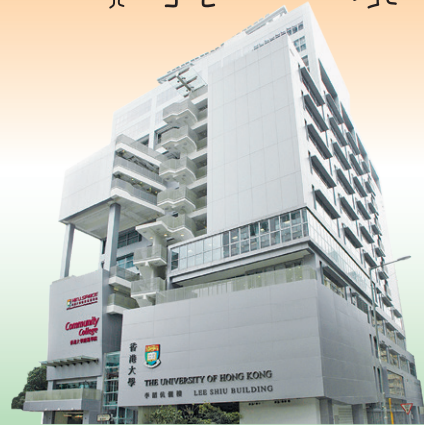

Our student community is increasingly diverse, drawing learners from Hong Kong, Chinese Mainland, and overseas. We value this diversity as a strength that enriches campus life and broadens global perspectives. For many years, our students have been performing impressively in musical events, undertaking internships in private corporations and non-governmental organisations, and participating in projects to help underprivileged groups and individuals. The College is now developing new programmes and courses to enrich our students' learning experiences, to enhance their academic endeavours, and to consolidate their career marketability. While many students pursue further studies, those who have opted for vocational pathways have been praised by their employers for their versatility, problem-solving skills, and professional attitudes.

Learning at HKU SPACE Community College extends beyond classrooms. Through the efforts of our Student Development and Counselling Services Team, we offer a wide range of activities supporting personal growth, well-being, and social engagement. Our Student Ambassadors, Mentorship Scheme participants, Students' Union, and numerous interest clubs foster meaningful connections, peer learning, and a sense of belonging in the College community.

As we move further into this decade, our goal remains clear: to uphold our tradition of academic excellence while innovating continuously to meet new challenges. We are confident that, with the dedication of our students and staff, HKU SPACE Community College will continue to help students realise their potential and build future success.

My two years at HKU SPACE Community College were transformative. I felt hopeless about returning to university, but now I'm thriving at one of the best. If direct entry isn't possible, an associate degree is a solid alternative. Stay dedicated to Year 1 Semester 1, as it sets the foundation. Embrace challenges, master APA7, and with resilience, you'll return as a true sigma boy/girl. If I can do it, so can you!

中學畢業生出路多，無論成績如何，總有升學機會及選擇。

DSE成績符合大學最低入學門檻 (即332A⁺) 但沒有JUPAS offer，又或獲派JUPAS offer未如理想，有什麼升學選擇？

If I meet the university's minimum entrance requirements but do not receive any offers from JUPAS, what choices do I have?

你可以選擇：

1. 副學士 (AD) 或高級文憑 (HD) 課程

持AD/HD學歷可以透過非聯招 (Non-JUPAS) 申請入讀八大的第三年課程 (即高年級學額 UGC-funded Senior Year Places)。2026年八大的高年級學額有5,000名。

一年級同學亦可以申請入讀八大的一年級課程。每年香港大學附屬學院均有相當數目的一年級學生憑此途徑順利升學。

或

2. 自資學士學位課程

自資學士學位課程大部份是四年制，坊間也有非本地自資學士學位課程，修讀年期不一。選擇自資學位時要特別留意學費、修讀年期、認受性及有關院校的教學質量及世界排名等。

You can apply for

1. Associate Degree (AD) or Higher Diploma (HD) programmes

AD/HD graduates can apply for admission to year 3 of UGC-funded degree programmes. There are 5,000 UGC-funded senior places in 2026.

Some of our students are admitted to Year 1 of a degree programme at UGC-funded universities after completing their first-year study.

or

2. Self-financed (SF) Degree programmes

Most self-financed degree programmes are of 4-year duration. Non-local programmes may have different duration. Students should pay attention to their tuition fee, duration of study, accreditation, teaching quality, world ranking and etc when making decision.

強差人意
There are always ways out.
Keep Calm!

萬一DSE成績達不到5科二級，也不用灰心，可以考慮報讀資歷架構第三級課程，如基礎文憑課程、應用教育文憑等，只需一年時間，即可升讀副學位課程，再闖大學之路。

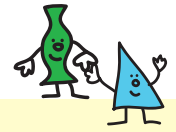

If you don't have Level 2 in 5 subjects, you may apply for programmes at QF Level 3, for examples, Diploma in Foundation Studies or Diploma of Applied Education, and apply for admission to AD/HD after 1 year of study. There are always opportunities to study a bachelor's degree.

The tuition fees are comparable no matter you choose to study 4-year self-financing (SF) degree or UGC-funded degree (2 years) via AD/HD (2 years). Sub-degree programme is more flexible in progression to UGC-funded degree programme or top-up degree programme.

The total tuition fees have deducted the annual subsidy of HK\$35,120 from HKSAR.

完成副學位後升讀八大的機會大嗎?
Is the chance of articulating to
UGC-funded degree programmes
after completing AD/HD high?

2026/27年度八大高年級學士學額為5,000個, 只供副學位畢業生報讀。由此途徑升學和經聯招入讀八大一樣, 仍然可以用四年時間 (2年副學位課程+2年高年級學士學位課程) 完成八大資助學士學位課程。

There are 5,000 UGC-funded senior year places for 2026/27, exclusively for AD/HD graduates to apply. Students normally complete a full-time UGC-funded degree programme in 4 years (2 years in sub-degree and 2 years in senior years of bachelor's degree).

My time at HDVC was truly a game-changer. The professional coaching was outstanding, and what made the experience exceptional was the opportunity to connect with fellow creatives in the design community. Learning from professors who actively shape the industry completely transformed the way I approach design. Thanks to this inspiring environment, I've achieved milestones I'm proud of, including winning two competition awards and receiving a national EDA award. Those invaluable connections and real-world networking opportunities beyond traditional academics have made all the difference in enhancing my skills and shaping my journey.

This was an unforgettable experience of studying at HKU SPACE CC. I felt a huge relief studying on the KEC campus for two years. I studied with my friends and learned a lot of valuable knowledge from the lectures. Those experiences can allow me to have a good elementary base to handle the workload of my university life. I earned an Associate of Engineering in HKU SPACE CC. They can provide brilliant lecturers and help us to build up the fundamental concepts of future study. Thanks to my hard work and immense support from my lecturers, I have made unprecedented progress in my academic study. HKU SPACE CC AENG is a good way for students to fathom their interests. From my hands-on experience, signal and PCB are my interests. Electronic Engineering, therefore, is a corking choice for me. Hopefully, you can find your interest and build up yourself in HKU SPACE CC. Good luck.

新媒體與傳播高級文憑畢業生
升讀香港浸會大學文學院 (文學士)

在這發展迅速、追求智能的新媒體時代，NMC讓我們接觸媒體界的各方面，令我們具備多元化的技能，應付這個世代的趨勢。

Wong Ka Ngan, Sylvia

• 2024-26 Student of Higher Diploma in New Media and Communications

以前上網睇片、錄IG，只係覺得「好得意」、「好搞笑」。讀完NMC之後，我發現，原來每一個post、每段片背後，都有好多策略同理論條度run緊。我開始學識點樣用唔同嘅工具去創作，亦學識點樣去「拆解」資訊，會開始思考點解我會睇到呢啲內容或者佢想影響我啲咩？呢個programme令我由一個齋睇嘅網民，變成一個有idea識去思考嘅人。無論係將來做嘢，定係日常同人溝通，我都覺得自己多咗去思考甚至連social嘅時候都自信好多。

Kwong Chi Chun, Michael

• 2021-23 Student of Higher Diploma in New Media and Communications
 • 2023-24 Student of Hong Kong Baptist University, Bachelor of Communication (Hons) in Film (Film and Television Concentration)

係NMC入面學到好多唔同關於影像製作嘅技能，例如 Photography 嘅 course 學點樣用相機、構圖、用光等等... Video Production course 學識剪片、Motion Graphic 教如何使用 After Effect，教學內容一環扣一環，為之後係製作影像方面打下基礎。對我來算，最大收穫是能認識志同道合的朋友一段友情，即使已畢業數年，我地仍然會定期約出聚聚會，甚至有時會一齊工作，看著大家每年都以不同程度在進步，也促使著我自己需要更努力。

升學之路 Progression Paths

Wong Cheuk Ting

Student of Associate of Social Sciences
Advancement to the Chinese University of Hong Kong

While my experience at HKU SPACE CC experience had its challenges, it was remarkable because our lecturers' support was key - from explaining tough topics to offering valuable advice. The most important thing about studying in HKU SPACE CC is having the courage to ask for help, and maintaining motivation and having a clear plan for achieving your goals. Building positive habits is the first step towards aiming high; then it's just about focusing on the goal and forgetting previous failures, which are just barriers to success.

Lau Tsz Ching Ann

Student of Associate of Social Sciences
Advancement to the University of Hong Kong

Over the past two years at HKU SPACE CC, my life has been both busy and rewarding. I have developed better time management skills, become more self-disciplined, and grown in ways I did not expect. I am especially grateful to the teachers here. Their friendly and down-to-earth personality made learning even more enjoyable. One thing my teacher said two years ago has stayed with me ever since: "Shoot for the moon. Even if you miss, you will land among the stars".

“Chart Your Path to
a Healthcare Career
with our Food and
Nutrition Programme.”

本課程旨在培養學生在營養和食品科學方面的技能和知識，為有志升讀相關學士學位課程或投身食品、營養和餐飲行業的學生打好基礎。課程涵蓋了不同課題，包括人體基礎知識、營養的生化基礎、不同生活階段個人的營養需求以及食品背後的科學和技術。課程分為兩個專業主題：食物及營養科學以及食物科學及食品安全。

選擇「食物及營養科學」主題的同學，學習重點在於飲食與人類健康的關係。學生將學習如何評估不同人生階段的營養需求、進行營養評估，以及設計均衡飲食餐單。而選擇「食物科學及食品安全」主題的同學，則會接受食品微生物學、食品化學及分析方面的全面培訓。此主題強調食品生產的技術應用與安全監控。

除了經驗豐富的講師外，有些專門知識課程還會由業內專業人士、營養師和營養學家授課，同學可以從中獲得實用和最新的知識。

為了增強學習體驗，本課程在設備完善的營養與科學實驗室中提供實踐課，讓學生能將理論知識應用於實際環境。此外，課程亦安排參觀本地健康機構和食品公司，進一步豐富學習經歷。這些活動有助於學生掌握行業見解、建立專業網絡，並了解所學知識在社交及學術環境中的實際應用。

This programme equips students with the essential skills and knowledge to pursue careers in the food, nutrition, and catering industries or to articulate into related degree programmes. Topics that will be covered include the fundamentals of the human body, the biochemical basis of nutrition, the nutritional requirements of individuals, and the science and technology of food. The curriculum is divided into two specialised themes: Food and Nutritional Sciences and Food Science and Safety.

For students choosing the Food and Nutritional Sciences Theme, the focus is on the relationship between diet and human health. Students learn to evaluate nutritional requirements across different life stages, conduct nutrition assessments, and plan balanced menus. Those opting for the Food Science and Safety Theme receive thorough training in food microbiology, food chemistry, and analysis. This theme emphasises the technical and safety aspects of food production.

In addition to dedicated and experienced lecturers, some specialism courses are taught by industry professionals, dietitians, and nutritionists. Students could gain practical and up-to-date insights.

To enhance the learning experience, the programme offers hands-on practical sessions in well-equipped nutrition and science laboratories, allowing students to apply theoretical concepts to real-world settings. The curriculum is further enriched by site visits to local health institutions and food companies. These experiences help students gain industry insights, develop professional networks, and understand the practical applications of their knowledge in social and academic contexts.
